

Chronic

- **medical : continuing or occurring again and again for a long time**
- **marked by long duration or frequent recurrence : not acute**

At the heart of a debate that continues to cause harm and danger to patients, the fact remains that the CDC states that Lyme disease is a clinical diagnosis.

Thousands show CDC positive tests after suffering from chronic symptomology due to Lyme disease, a multi-systemic infectious disease syndrome (MSIDS), including Borrelia bacteria and co-infections.
