

The image features the letters 'USA' in a large, bold, sans-serif font. The 'U' is red, the 'S' is light gray, and the 'A' is blue. The letters have a dark blue shadow effect. They are set against a background of horizontal red and white stripes, with a solid red bar at the top.

Lyme disease has been found in every state in America. At minimum, 300,000 new cases are diagnosed each year since 2013. By the end of 2015, that equals close to 1 million new cases. These figures do not include misdiagnosed or undiagnosed cases, nor does it include any cases that become chronic or involve co-infections.
